April 2023

From: Sue Kutay, Global Product Manager
To: Customers and channel partners for the KODAK FLEXCEL NX System
Subject: **New pallet configuration for KODAK FLEXCEL NXH Plates**

To our valued customers:

This notification is for information only.

As of March 2023, we began implementing an optimization in the pallet configuration for our KODAK FLEXCEL NXH Plates. The redesign introduces a paperboard divider into our large format plate boxes to replace the existing polystyrene (PS) sheet. The redesign provides the same level of protection to the plate stacks during shipment while significantly increasing the recyclable content of our packaging.

In the first year after introduction this single change will divert ~ 11,100 KG of plastic (polystyrene) from our plate packaging waste stream.

There is a slight increase in the gross weight of the product because of this change. Please refer to the following tables for more information on the new gross weight per plate box for these products.

Please refer to the attached infographic for more information on the revised gross weights and measures for these products.

What action do I need to take?

Please share this information with others in your business, as appropriate. Please continue to use the current plate catalog numbers until notified by customer service. The switch to the new numbers will occur automatically when existing stock is depleted.

There is no change in plate kit catalog numbers. If you place an order for the affected plate kit catalog number, you will automatically receive the redesigned plate packaging in your shipment when existing stock is depleted.

What products will be included in the redesign?

FLEXCEL NXH 5065 & 5080 Plate Catalog Numbers

Current Catalog Number	Replacement Catalog Number	Description	Revised Gross Weight (KG)
20402045	20402045Y1	NXH 114 1270 1651 0015	71
20395000	20395000Y1	NXH 114 1270 2032 0015	86
20402046	20402046Y1	NXH 170 1270 1651 0010	69
