

**Date:** [OBJ] June 14, 2023  
**From:** [OBJ] Sue Kutay, Global Product Marketing Manager  
**To:** [OBJ] KODAK FLEXCEL NX Thermal Imaging Layer & KODAK DITR Film Customers  
**Subject:** [OBJ] **Color of poly bag packaging material**

**To our valued customers:**

In your upcoming orders, you may notice a color change in the poly bag material used to package the FLEXCEL NX Thermal Imaging Layer Products (TIL & TIL/R) and DITR Film. **The color change is cosmetic in nature and does not impact its ability to protect the film from stray UV light. This change will not impact any performance characteristics of the film. You can continue to use the product with confidence.**

*Figure 1 Side by side color comparison of the Polybag materials (backlit)*

**What action do I need to take?**

Please share this information throughout your operation as appropriate. Continue to use the product per your normal practice.

**What products are impacted by the change?**

The following table outlines which products contain the different colored bags.

If you have any questions regarding this communication, please contact your local sales manager or technical support.

Thank you once again for both your understanding and your continued business with us.
