Re: EU RoHS Statement for FLEXCEL NX Plates and Thermal Imaging Layer (TIL, TIL/R)

European Union (EU) RoHS Directive 2011/65/EU

The RoHS Directive is applicable to most electrical and electronic equipment (EEE) placed on the market in the European Union on or after July 1, 2006.

The following consumable products:

- **FLEXCEL NXH Plates**
- **FLEXCEL NXC Plates**
- **FLEXCEL NXUH Plates**
- **FLEXCEL Thermal Imaging Layer (TIL, TIL/R)**

are not components of EEE and are not EEE, therefore, these articles are not in scope of the EU RoHS Directive. The EU RoHS FAQ document dated 12 December 2012 states that consumables are not in scope of RoHS.

In addition, the above listed products do not contain any of the ten RoHS materials at concentration greater than the limits specified in the European Union RoHS Directive 2011/65/EU.

Lead and its compounds (0.1%)
Mercury and its compounds (0.1%)
Cadmium and its compounds (0.01%)
Hexavalent Chromium and its compounds (0.1%)
Polybrominated Biphenyls (PBBs) (0.1%)
Polybrominated Diphenyl Ethers (PBDEs) (0.1%)

Restrictions on the substances below take effect 22 July 2019.

Bis(2-Ethylhexyl) phthalate (DEHP): (0.1%)
Benzyl butyl phthalate (BBP): (0.1%)
Dibutyl phthalate (DBP): (0.1%)
Diisobutyl phthalate (DIBP): (0.1%)
